Kids Art Club

"The focus is on children's perspectives as this acts as an indicator for us and our community on how the world impacts on them. The opportunity to learn to express themselves through art gives them a visual vocabulary that can develop as they grow up. This contributes to a rich community for us and an "art" ticulture youth.

I am constantly amazed and inspired by how children express their perspectives of the world they live in." – Inger Lenau

Kids Art Club

At Coffs Harbour Regional Gallery

The Kids Art Club focuses on supporting children's natural impulses to immerse themselves in a creative process.

The children will be introduced to different techniques and materials and to drawing, painting, simple graphic processes and three dimensional work.

Together with the 7-12 year olds we will approach art through play, imagination and the senses.

During this winter program we will focus on the world we live in and our natural environment: plants, animals, birds, stars and planets, sea creatures and our family.

The teenagers are given the opportunity to work on their individual approach to art and the joy in expressing themselves through painting and mixed media.
